

# Heparinoids <sup>b</sup>

## SPECIFICATION

### Organoleptic characteristics

Appearance White or quite white powder

### Identification

Electrophoresis Positive

### Physico-Chemical and Chemical Parameters

pH	5.0 – 9.0
Optical rotation	Not less than +5 °
Absorbance (260 nm)	Not more than 0.600
Absorbance (280 nm)	Not more than 0.400
Chondroitin sulfate	Not more than 5.0 %
Loss on drying	Not more than 10 %
Protein	Absent

### Assay

Biological activity (as is) Not less than 65 IU/mg

## ADDITIONAL INFORMATION

Heparinoids derived from a sodium heparin that complies with EP, USP and JP monographs and with the following characteristics:

- Source: from Europe, North and South America
- Animal origin: 100% porcine origin (rtPCR certified)
- Certification: GMP approved

Heparinoids have no special storage requirements. Shelflife is 4 years.
